<p>Aims and vision of the TIG:</p> <p>As educators we truly believe that the concept of internationalisation can deliver a valuable contribution in future education. But how we can improve the quality of education by introducing the international dimension? This is the challenge we are facing to prepare the newly internationally qualified educator.</p> <p>Therefore the TIG-internationalisation has a focus on sharing and exploring ideas, concepts, strategies and expertise within Internationalisation in education, both in schools and in Higher Education. The TIG also promotes the cooperation between the members of the ETEN-Network. There are three sub-interest groups within the TIG:</p> <ul style="list-style-type: none"><li>• Internationalisation in curricula and policies</li><li>• International courses and Study Abroad Administration</li><li>• Comparative education</li></ul>
<p>Format of the sessions:</p> <p>The TIG Internationalisation has agreed on a limited number of contributions/workshops on the first half day of the conference. The presentations should be interactive.</p> <p>During the other sessions (Friday pm and Saturday am) the TIG has focus on items of the 3 sub interest groups.</p> <p>If your paper has not been selected there will be an opportunity for a poster presentation during the conference programme.</p>
<p>Topic(s) for next conference (Coimbra):</p> <p>Preference will be given to contributions that have a practical character, stimulating the exchange of ideas, approaches and models in the different curricula. We start with a general opening, where contributions can be presented which are linked with the Conference theme or aims and vision of the TIG.</p>
<p>Call for papers and proposals: send abstract to TIG leader before 1<sup>st</sup> of December 2011</p>
