Name of the TIG: Urban Education

Name of TIG leader(s) and contact details :

Adri Menheere (Hogeschool van Amsterdam, The Netherlands) and M. Francyne Huckaby (Texas Christian University, United States of America)

e-mails: [f.huckaby@tcu.edu](mailto:f.huckaby@tcu.edu) & [a.menheere@hva.nl](mailto:a.menheere@hva.nl)

Urban Education refers to a wide range of issues related to the education of students living in inner cities and, in more recent years, geographic areas in proximity to cities. Important issues in Urban Education include the education of students who are ethnically and culturally diverse, who live in poverty, and who are not speakers of the dominant language in the society; as well as the education of teachers who have the dispositions, knowledge, and talents to respond pedagogically.

The Urban Education TIG values an open exchange of theoretical and practical ideas about pedagogy and teacher education. It is for this reason that the number of papers, discussion topics, and workshops are limited. Proposals for workshops, topics of discussion, and academic papers should consist of an abstract of not more than 350 words, and include the names and contact information of all authors. Proposals must be submitted via e-mail by 1 December to the TIG leaders, Adri Menheere (Hogeschool van Amsterdam, The Netherlands) and M. Francyne Huckaby (Texas Christian University, United States of America). We look forward to your proposals and will respond with notifications in early January.

Call for papers and proposals: send abstract to TIG leader before 31<sup>st</sup> of January of 2011
